4.1	Appendix I: Market consultation – public material	3

## **1 Introduction**

From the 13<sup>th</sup> of July 2020 until the 7<sup>th</sup> of August 2020 included, Fluxys LNG consulted the market on a proposal with regards to the scheduling procedure for Truck Loading Services.

The proposed change introduces a scheduling time linked to a Subscription Window. This scheduling time will allow customers to schedule starting hours for the years subscribed during the Subscription Window as of noon on the 3<sup>rd</sup> business day after the closing date of the Subscription Window.

## **2 Consultation process**

Fluxys LNG launched this market consultation by publishing the proposed documents on its website - at the usual location for such consultations, supported by an announcement on the homepage - and via direct e-mailing to all registered market participants and associations.

During the period from July 13<sup>th</sup> until August 7<sup>th</sup> 2020 (included), stakeholders were invited to submit their written feedback and, if needed, seek additional information through bilateral contacts with Fluxys LNG.

Taking into account the different comments received, the structural growth of the services and the shown interest during the call for market interest (conducted from June 17<sup>th</sup> until July 17<sup>th</sup> 2020), Fluxys LNG submits for approval to the CREG, the so amended version of the LNG Access Code for Truck Loading.

## **3 Outcome of consultation process**

All comments received are listed in the consultation report submitted to CREG – see appendices.

Supportive feedback was received from 1 respondent.

## **4 Appendices**
