4.1	Appendix I: Market consultation – public material	2

1 Introduction

From 22 December 2020 until 15 January 2021, Fluxys LNG consulted the market on a proposal with regards to:

- A new expansion of the Zeebrugge LNG terminal in order to offer extra Stand Alone Send Out Capacity,
- The amended tariff proposal including this expansion of the Zeebrugge LNG Terminal.

Fluxys LNG consulted the market as it considers an investment for an expansion of the Stand Alone Send Out Capacity following a successful Open Season (10,5 GWh/h/year subscribed long term).

2 Consultation process

Fluxys LNG launched this market consultation by publishing the proposed documents on its website - at the usual location for such consultations, supported by an announcement on the homepage - and via direct e-mailing to all registered market participants and associations.

During the period from December 22nd until January 15th 2021 included, stakeholders were invited to submit their written feedback and, if needed, seek additional information through bilateral contacts with Fluxys LNG.

Fluxys LNG submits for approval to the CREG the amended LNG Terminalling Programme and LNG Tariff Sheet.

3 Outcome of consultation process

No comments were received from the market.
