

RESIDUAL STORAGE THE MISSING PIECE FOR LNG STORAGE SERVICES

- We aim at offering a new type of storage as from July 2018
 - Monthly product
 - Bookable FCFS, from 35 days before start of each month
 - Availability determined each month in function of expected terminal usage - we expect to indicatively offer 10.000 up to 30.000 m³LNG
- Indicative Tariff – subject to consultation and CREG approval
 - 50 €/m³LNG on yearly basis, or equivalent of ~4,2 €/m³LNG for 1 month*
- Available to all type of terminal users and contracts, incl. for truck loading

REINFORCING OUR RELOADING OFFER

- Our new Small-Scale Berthing Right proposal aims at supporting the development of small-scale activity at Zeebrugge
- Main characteristics of the new offer
 - SSBR = right to berth and load LNG for small-scale ships
 - 70 slots per year available, offered through Subscr. Window and then FCFS
 - Indicative tariff - subject to consultation and CREG approval - 1.1 €/MWh loaded, with a min. of 28.000 € per SSBR
 - In 2018, one time opportunity to convert subscribed Add. Berthing Right into SSBR, on a financial neutral basis

CONSULTATION ON NEW LNG TERMINALLING SERVICES

- Market Consultation launched today covering our new services
- Deadline: 6 April COB
