## 3 Introduction

### 3.1 Scope

This TCSW defines the relation between the Storage Operator and the Participant to the Subscription Window and the requirements for participating to the Subscription Window.

The object of this Subscription Window concerns Storage Services starting on 01 April 2022 according to the provisions in the Access Code for Storage (“ACS”).

This Subscription Window will start at the opening time of 20 December 2021 at 08:00 AM local time (“Opening time”) and comes to an end on the closing time of 24 January 2022 at 12:00 AM (“Closing time”).

All requests received from Participants are binding (hereafter referred to as “Binding Requests”). Any Binding Requests received by the Storage Operator after the above-mentioned Closing Date shall automatically be excluded from this Subscription Window.

The Storage Operator will allocate the Storage Services through this Subscription Window at the latest on 26 January 2022 at 12:00 AM local time.

### 3.2 Description of the offered Services

The offered Services via this Subscription Window (the “Offer(s)”) are:

- **Long term Golden SBU’s** (starting at 01/04/2022)
  - Minimum duration: 2 Storage Years
  - Maximum duration: 10 Storage Years
- **Priority Booster Capacity** (can only be booked for periods where Storage User has firm injection/withdrawal rights or SBUs)
  - Seasonal
  - Quarterly

Taking into account the Storage Services which have been previously subscribed, without prejudice to the provisions described in Attachment C2 of the ACS, the maximum amounts of capacity a Storage User can request for this Subscription Window are:

<b>Offered Golden Standard Bundled Units (firm)</b>		
SBU	250.000	<i>number of SBUs</i>

Representing the following capacities per Golden SBU:

- Storage Volume **30,44** *MWh*
- Injection **0,0113** *MWh/h*
- Withdrawal **0,0224** *MWh/h*

<b>Offered Priority Booster Capacity "PBC" (interruptible)</b>
--

Representing the following maximum capacities:

- PBC Injection **1700** *MWh/h*
- PBC Withdrawal **2260** *MWh/h*

### 3.3 Requesting the Services

The SBUs shall be requested by stating the number of SBUs in the Binding Request by means of the Storage Request Form for Contracting (see SRFC in schedule 1 of this TCSW).

Secondly, according to paragraph 5 of this TCSW, Storage Users can also request Priority Booster Capacities. Please note that the available Priority Booster Capacities can only be booked during periods where the Storage Users has firm injection rights for PBC Injection and firm withdrawal rights for PBC Withdrawal. Furthermore, the allocation of PBC injection capacity (resp. PBC Withdrawal capacity) can never be higher than the total offered PBC injection capacity (resp. PBC Withdrawal capacity) times the ratio of allocated SBUs to the total amount of SBUs.

Each year storage users who have booked SBUs for multiple years will have the privilege to request, before Fluxys starts commercialising the storage services for the forthcoming storage year(s), the amount of PBC they want to book for their subscribed period (proportional to the amount of SBUs booked).

For specific conditions applicable to the Offers as described above we refer to the Access Code for Storage.

### 3.4 Tariff(s)

The applicable tariffs to the Services offered through this Subscription Window are the Regulated Tariffs as published on the Storage Operator's website:
