

# Terms and conditions

## AUCTION WINDOW

### Slots to unload, store & regasify LNG in June 2022

Zeebrugge LNG Terminal

Applicable for the Auction Window offering 3 regas Slots in the Zeebrugge LNG TML for 7 June, 13 June and 28 June 2022

# TERMS AND CONDITIONS

## AUCTION WINDOW – Slots to unload, store & regasify LNG in June 2022

These Terms and Conditions for the Auction Window (TCAW) for participation to the Auction for Slots to unload, store & regasify LNG in June 2022 organized by Terminal Operator are entered into between:

1. **Fluxys LNG NV/SA**, a public limited company organized and existing under the laws of Belgium, having its registered office at 1040 Brussels, Rue Guimard 4, entered in the registry for legal entities under the number 0426.047.853, here duly represented by  
Leentje Vanhamme  
Director Fluxys LNG  
Hereafter referred to as "**Terminal Operator**".

### AND

2. ...., a company organized and existing under the laws of....., having its registered office at ....., entered with the Company Register under the number....., here duly represented by

[First name, Surname,  
position]

[First name, Surname,  
position]

Hereafter referred to as "**Applicant**" and, when and if successfully registered by the Terminal Operator, as the "**Participant**".

The Terminal Operator and Applicant or Participant, depending on the status of the Auction Window, may hereafter be individually referred to as a "**Party**" and collectively as the "**Parties**".

Done in ....., on ..... in two copies, each Party acknowledging receipt of its copy.

**WHEREAS:**

- A. The Parties have entered into a LNG Services Agreement "LSA" or a Capacity Subscription Agreement "CSA".
- B. Slots on offer by the Terminal Operator are limited and allocated to the interested entities through a market mechanism, being an auction process.
- C. In the framework of the LSA & the CSA, the Terminal Operator is willing to offer to the Applicant the possibility to subscribe Slots by participating to an Auction Window under the terms and conditions as set forth in this TCAW. Such access to the Auction will be granted to the Participants' Bidders who registers themselves, as further specified in the TCAW. This TCAW describes in further detail under which terms and conditions access is granted to the Auction Window and under which terms and conditions the Participant, that wishes to acquire Slots, can submit a Bid and as the case may be, be allocated Slots.

# 1. INTERPRETATION

In this TCAW:

- 1) all references to a clause/section, unless specified otherwise, are references to a clause/section in this TCAW; references to a paragraph are references to a paragraph in this TCAW;
- 2) all terms and names are to be interpreted according to the list of definitions of the LNG Access Code for the Zeebrugge LNG Terminal;
- 3) the layout, heading and (sub)sections are only for the benefit of the reader and are inconsequential as regards the interpretation of content of this TCAW;
- 4) the description of rules, conditions and provisions only relates to the LNG Services offered via this TCAW.
- 5) all dates and time are referred to as in Belgium local time.

## 2. INTRODUCTION

### 2.1. Scope

The Terminal Operator will be allocating Slots as defined in detail in article 2.2 through Auction. The Services on offer through the Auction Website by the Terminal Operator are bound by the provisions of both the LNG Access Code for the Zeebrugge LNG Terminal (AC LNG) and this TCAW. The Auction Website is available to the Participants/Bidders free of charge.

The Terminal Operator is organizing 3 Auctions that will take place on **6 May 2022 10:00 AM, 9 May 2022 10:00 AM and 10 May 2022 10:00 AM.**

This TCAW defines the relationship between the Terminal Operator and the Applicant/Participant to the Auction Window, the registration requirements and procedures for participating to the Auction Window, including the various applicable procedures and conditions throughout the Auction process and the warranties provided by each Party.

## 2.2. Description of the Offered services

Offered Slots: Fluxys LNG is offering 3 Slots to unload, store and regasify LNG, as defined in the LNG Access Code for the Zeebrugge LNG Terminal

The 3 offered slots will be commercialised in 3 separate Auctions as follows:

1. **Auction of 6 May 2022 10.00 AM:** 1 Slot, Start Date: 7 June 2022 7.55 PM, HT610
2. **Auction of 9 May 2022 10.00 AM:** 1 Slot, Start Date: 13 June 2022 00.59 AM, HT630
3. **Auction of 10 May 2022 10.00 AM:** 1 Slot, Start Date: 28 June 2022 2.32 PM, HT690

## 2.3. Tariff and Reserve Price

The Auction reserve price will be **600 349,11 €**. (Regulated Tariff for a Slot)

For the avoidance of doubt, the cleared and reserve price of the auction only refer to the fixed component of the Slot.

Additional costs to be taken into account on top of the costs for the Slots:

**Gas In Kind 2022:** a variable Gas In Kind of 1.3% applies on Send Out nominations

More information concerning Gas In Kind is published on the Fluxys LNG website:

[https://www.fluxys.com/en/products-services/empowering-you/tariffs/tariff\\_fluxyslmg-lng](https://www.fluxys.com/en/products-services/empowering-you/tariffs/tariff_fluxyslmg-lng)

## 3. REGISTRATION

### 3.1. Becoming a Participant

For the avoidance of doubt, pursuant to the Code of Conduct, before becoming a Participant a party has to be a Terminal User under the LSA or under the CSA. If you're not a Terminal User yet, please contact [info.lng@fluxys.com](mailto:info.lng@fluxys.com).

### 3.2. Participant to the Auction Window

In order to become a Participant to the Auction, the Applicant shall provide the Terminal Operator with the following accurate and complete Registration Documents (unless these documents have already been provided to and accepted by the Terminal Operator earlier in the Auction Window):

1. a Power of Attorney (as provided in Schedule 1 of this TCAW);
2. this TCAW duly signed.

Only one Affiliated Company may participate to the Auction.

The Registration Documents shall be sent to the Terminal Operator by registered mail with acknowledgement of receipt, to the attention of:

*Fluxys LNG  
c/o Sales support  
Rue Guimard 4  
1040 Brussels  
Belgium*

or electronic mail to [info.lng@fluxys.com](mailto:info.lng@fluxys.com).

**The Registration Documents for the Auction must be received no later than 5 May 2022 at 12 PM Belgian time, i.e. noon Belgian time.**

### **3.3. Power of Attorney**

The Applicant shall provide the Terminal Operator with a Power of Attorney, in the form and content attached hereto as schedule 1 (the "Power of Attorney"). This Power of Attorney will appoint between one and three individuals and will be accompanied by a copy of their national ID card or passport.

The Power of Attorney shall be signed by the duly authorized representatives of the Applicant having the power to bind the Applicant vis-à-vis third parties. The Applicant shall attach evidence of such authority to the Power of Attorney.

The Power of Attorney must satisfy all formal and substantive requirements applicable to the Applicant, including those resulting from its place of incorporation (such as witnessing, legalization and authentication requirements).

## **4. PRACTICAL INSTRUCTIONS**

### **4.1. Auction Website Manual**

Once the required Registration Documents (see point 3.2) are approved by the Terminal Operator, Participants/Bidders shall be provided with an Auction Website Manual via e-mail. This Auction Website Manual may be amended from time to time at the Terminal Operator's discretion. It is provided for information purposes only and is not binding on the Terminal Operator. As such the Terminal Operator is not liable for its content.

### **4.2. Minimum requirements Auction Website**

The following minimum requirements are to be met:

- Internet Explorer 8 (IE 8) or Google Chrome;
- Javascript enabled (JavaScript enables the site to refresh);
- SSL 3.0 enabled (for security reasons);
- The Participant must be registered and authenticated.

The above minimum requirements are necessary for the proper functioning of the Auction Website. It is the responsibility of the Participants / Bidders to ensure that the above components are duly available and working.

### **4.3. Access to the Auction Website**

Once the Registration Documents are approved by the Terminal Operator, Bidder identified in the Power of Attorney shall be provided with a password allowing such Bidder to access the Auction Website. For the avoidance of doubt, the password will be sent separately to each Bidder, via e-mail and must be kept confidential by the Bidder.

Upon availability of the Auction Website, each Bidder shall be required to log on to the Auction Website with the username provided and the password provided by the Terminal Operator. Upon logon, the Bidder will be requested to change his/her password to a new password of his/her choice. This new password will be necessary for submitting Bids in the Auction as from the Auction Start Date. Passwords are confidential. The Participant will make sure the Bidders take every measure to keep their password confidential and do not share it, even with other employees of the Participant.

This selection by a Bidder of a new password will imply that the said Bidder will take part in the Auction.

## 4.4. Specific Auction Website provisions

An indicative round schedule will be announced prior to the start of the Auction. The Terminal Operator preserves the right to open a Round at a certain time (deviating from the indicative round schedule). In the latter case, the Bidders will be duly informed on the Auction Website.

Despite an automatic refresh is provided in the Auction Website (requires compliance with the minimum requirements for the Auction Website as defined in point 4.2), the Terminal Operator might not be held responsible for a timely refresh. For that purpose, an indication of the last refresh will be displayed on the Auction Website and as the case may be, a manual refresh might be required by the Bidder in his/her browser. More details will be available in the Auction Website Manual.

## 4.5. Auction parameters

**The auction will take place by applying the Ascending Clock mechanism**, as defined in the LNG Access Code for the Zeebrugge LNG Terminal.

Following specific Auction parameters will be applicable during the Auction:

- Auction Time: shall be the Auction time of the Auction Website as published to the Bidders;
- Reserve Price for 1 Slot: 600 349,11 € (see point 2.3);
- Auction Start Date (\*):
  - **6 May 2022 10.00 AM** for selling the Slot with Service Start Date 7 June 2022 7.55 PM
  - **9 May 2022 10.00 AM** for selling the Slot with Service Start Date 13 June 2022 00.59 AM
  - **10 May 2022 10.00 AM** for selling the Slot with Service Start Date 28 June 2022 2.32 PM
- **Round Duration (\*): a Round will have a duration of 3 minutes;**
- Publication of total Demand for a Round: after the end of each Round;
- Round Opening Time (\*): a Round will start 1 minute after the previous Round was closed;
- Maximum Bid Quantity for each Bidder(\*): 1 Slot;
- The smallest Bid Quantity for each bidder: 0 Slot;
- **Price increase for the Major Price Step is set at (\*): 600 000 €;**
- **Price increase for the Minor Price Step is set at (\*): 100 000 €;**

Where necessary for the good working of the Auction, parameters with an asterisk (\*) could be changed upfront (at the latest 1h before the Auction Start Date) or during the Auction (between 2 rounds, in which case the Round will start at least 5 minutes after the communication of the change). Bidders will be notified of such change.

## 5. THE AUCTION PROCESS

The Auction shall be conducted by the Terminal Operator. Each Bidder can submit one Bid in each Round. The Auction is considered conclusive based on the relation between the Offer and the Demand for the LNG Service(s) of the Bidders in accordance with the Price Step rules in the LNG Access Code for the Zeebrugge LNG Terminal.

### 5.1. Bidding process

The Bidder may submit a Bid which will be considered as a binding request for contracting the Slot. If Bidder submits no bid during a Round, the system will consider this as a bid of zero (0) lots or zero (0) Slots.

Such Bids will be entered by means of the Auction Website, except in case of fall back. In the latter case, the Terminal Operator will make its best reasonable efforts to allow the Bidder to submit a Bid by a signed e-mail sent from the professional e-mail address of the authorized Bidder.

The fall back procedure described hereafter will however not apply in case of a technical problem related to the overall availability of the Auction Website. In such case, the Terminal Operator will evaluate to either postpone or abandon the Auction.

#### 5.1.1. Communication and fall-back procedure

Communication during the Auction between the Participant(s), represented by its Bidders, and the Terminal Operator can be performed by the following means:

- (i) The Terminal Operator can publish information to the attention of all Bidders by means of a message window in the Auction Website. The Bidders are accountable for the timely reading of those messages;
- (ii) The Terminal Operator and a Bidder can contact each other by means of telephone. For the Terminal Operator the number +32 2 282 71 44 is applicable. The content of the conversation may be recorded by the Terminal Operator, and used as evidence. A Bid cannot however be submitted or modified by telephone.
- (iii) The Terminal Operator and a Bidder can contact each other by means of e-mail. For the Terminal Operator the email address [info.lng@fluxys.com](mailto:info.lng@fluxys.com) is applicable. A Bid cannot however be submitted or modified by email unless in case of fall back as specified in 5.1.

It is the Participant's entire and sole responsibility to ensure that it timely submits a Valid Bid in each Round. In particular, the Participant's attention is drawn to the fact that there may be some time lag between the submission of a Bid and the receipt by the Terminal Operator of such Bid. The Participant shall ensure that all equipment used by it in connection with the Auction operates properly.

For Bids received by e-mail, the “Fall Back Bidding Form”, clearly indicating the Round ranking number, has to be used as enclosed in Schedule 3 of this TCAW. The “Fall Back Bidding Form” will only be accepted:

- (i) When the receipt time of the e-mail by the Terminal Operator is still before the Round is closed, as established by the Auction Time;
- (ii) Upon request of the Terminal Operator, the Bidder shall provide the Terminal Operator with satisfactory evidence and description of the technical problem.

## 5.2. Allocation process

The allocation process for this Auction Window is the Ascending Clock Algorithm.

Through this mechanism, the price and allocation of a Slot is determined in an open competition among Participants through successive rounds. If the demand for a Slot is higher than its supply, a new round is triggered and the price increases.

The following allocation rules are applicable:

- In case Demand is lower than the Offer in the first round, the Auction stops without the Slot being allocated
- In case Demand equals the Offer for a Round:
  - o The Cleared Price is the Round Price of that Round
  - o Each Participant is allocated its Bid Quantity of that Round
- In case Demand is higher than the Offer for a Round:
  - o There is no Allocation
  - o The auction goes to another round and a Major Price Step is added
- In case Demand is lower than the Offer after the first Round:
  - o There is no Allocation
  - o A Minor Price Step is added to the Price of the previous Round
  - o Such Minor Price Step is added in next Rounds until Demand equals Offer
- If during the Minor Price Steps the Demand is lower than the Offer
  - o Terminal Operator will contact Participants via email having entered a Bid Quantity higher than zero during the previous Round, and ask Participants for a best and final offer on price, to be submitted via the form provided in Schedule 4.
  - o This best and final offer has to be submitted by Participant within 30 minutes after Terminal Operator has requested this best and final offer on price via electronic mail.
  - o The Slot will be allocated to the Participant that submits the highest best and final offer on price. In case the price of the Bids were to be the same, Terminal Operator will allocate the Slot to the Bid that was received first.

In case of an unplanned IT outage leading to the Auction Website being unavailable, Terminal Operator may stop the Auction and switch to a single round Allocation Process, whereby Participants will be asked to immediately submit their best offer, using Schedule 4.

This offer has to be submitted within 30' after request by electronic mail from the Terminal Operator.

## 6. OTHER PROVISIONS

### 6.1. Obligations and Liabilities

The Participant and/or its Bidders will not commit any act that would be constitutive of market abuse as defined in Regulation (EU) 596/2014 of the European Parliament and the Council of 16 April 2014 on market abuse or Regulation (EU) 1227/2011 of the European Parliament and the Council of 25 October 2011 on wholesale energy market integrity and transparency (REMIT regulation).

### 6.2. Warranties

#### 6.2.1. Warranties by the Terminal Operator

The Terminal Operator makes no warranty regarding the quality or continuous availability of the Auction Website or the reception or saving of Bids in the event of technical or other problems beyond its reasonable control.

#### 6.2.2. Representations and Warranties by the Applicant/Participant

The Participant warrants and represents:

- (i) Participant has a cargo in portfolio that he will bring to perform the Slot, and has the full financial capability associated to realizing this operation.
- (ii) None of its Affiliated Companies is trying to take part in the Auction;
- (iii) The information set forth in the Power of Attorney is complete and accurate in all material respects (the Terminal Operator cannot be held liable for the correctness of the data submitted for registration). The Applicant/Participant understands that the Terminal Operator needs to process and use, for the purposes of organizing the Auction, the personal data of Applicant's representatives identified in the Power of Attorney and represents that it has informed these individuals of such processing and that they have agreed with such processing; the Applicant/Participant warrants and represents that it is in compliance with the *Belgian Act of 30 July 2018 on protection of individuals in relation to personal data processing*;
- (iv) It determines independently its participation in the Auction, without any contact with a competitor as to the frequency and the level of its bidding. Its Bidders have been made aware of the obligations and the penalties set by article 101 of the Treaty on the functioning of the European Union, article 2 of the Belgian *Loi sur la protection de la concurrence économique / Wet tot bescherming van de economische mededinging* and article 314 of the Belgian Criminal Code;
- (v) It has not already sold, even on a conditional basis, the capacity which is being awarded through the Auction;
- (vi) Its Bidders will only place Bids for capacity pursuant to a *bona fide* estimate of Participant's actual needs. The Applicant/Participant will not engage in hoarding behavior.

### **6.3. Termination – Rolling back (“rewind”)**

Bidders may at any time before the Auction Start Date refrain from participating in the Auction by notifying the Terminal Operator in writing.

The Terminal Operator may, if reasonably necessary for technical or operational reasons or in the event of particular circumstances, such as manifest collusion, decide to terminate the Auction. In such case, the Terminal Operator shall immediately notify Participants or Bidders in writing of such decision, without prejudice to the possibility to exclude one or several Participants. Participants or Bidders shall have no claim or right in relation to any such termination or exclusion.

In exceptional circumstances having a *force majeure* nature, the Terminal Operator may also decide to roll-back (“rewind”) the Auction to the place where it was before such exceptional circumstances began. If the Terminal Operator makes use of this possibility, it will report for information about such circumstances in a report to the Regulator.

### **6.4. Confidentiality clause**

Confidentiality shall apply to all information obtained by the Parties in the framework of this TCAW and its execution.

For purposes of transparency and the good working of the auctioning, the Terminal Operator shall however publish Demand information after each Round on an aggregated basis for purposes of preserving the Bidders' anonymity.

## 6.5. Notices

Without prejudice to the rules applying to communications made when an Auction is in progress (including the fallback procedure, as the case may be), all notices in writing pursuant to this TCAW shall be given by registered mail or electronic mail (confirmed by registered letter or by express courier service), to the following addresses of the Terminal Operator: [info.lng@fluxys.com](mailto:info.lng@fluxys.com) or

*Fluxys LNG  
Rue Guimard 4  
1040 Brussels  
Belgium*

Any notice pursuant to this article, shall be deemed effective as of the following points in time:

- (i) if sent by registered mail, on the date on which such letter is delivered or a first attempt at delivery is made;
- (ii) if sent by electronic mail, on the date that such mail is delivered.

## 6.6. Invoice

Terminal Operator will establish the Slot invoice immediately after the allocation process ends, this invoice will have a due date before the Slot Start Date.

## 6.7. Language

All communications pertaining to the Auction shall be in the English language only.

The convention used for writing numbers in this TCAW is that the space is used to indicate multiples of a thousand and the comma as the decimal point.

## **6.8. Miscellaneous**

The Applicant shall not be entitled to assign or transfer, even on a conditional basis, any right it may have in respect or as a result of the Auction to any other party, including an Affiliated Company, before it has duly signed the SCFC (as defined in the AC LNG) based on the outcome of the Auction.

This TCAW creates no rights in favor of third parties.

## **6.9. Governing Law and disputes**

These Auction Rules shall be governed and construed in accordance with the laws of Belgium, to the exclusion of its conflicts of law provisions.

Any dispute, controversy or claim arising out of or in connection with these Auction Rules shall be finally settled in accordance with AC LNG.

## Schedule 1

*To be printed on Applicant's letterhead, completed consistently with applicable law, and sent to the Terminal Operator in accordance with Article 3 of the TCAW*

### POWER OF ATTORNEY<sup>1</sup>

This Power of Attorney and expression herein shall have the respective meaning given in this TCAW and is limited in time to the corresponding Auction subject to this TCAW.

Company name: \_\_\_\_\_

Jurisdiction of incorporation: \_\_\_\_\_

Company address (registered office): \_\_\_\_\_

Company VAT Number: \_\_\_\_\_
