

Market area conversion levy

The market area conversion levy according to § 25 Terms and conditions for the entry and exit contract and § 10 KoV is calculated nationwide and applicable to all exit points in addition to the network fees. The market area conversion levy will not affect exit points as storage facilities, cross-border interconnection points and market area connection points.

Specific biogas levy 2021

In accordance with Section 7 of the Cooperation Agreement in the currently valid version ("KoV") in conjunction with the "Guidelines for biogas redistribution levy" Fluxys TENP GmbH publishes the nationwide standard specific biogas levy. For the calendar year 2021 the nationwide standard specific biogas levy amounts to 0.6250 €/kWh/h/a, respectively 0.00171233 €/kWh/h/d.

The corresponding biogas levy will be charged in addition to the tariffs of exit points to directly connected end consumers and to downstream network operators of Fluxys TENP GmbH. Exit points to storages, cross-border interconnection points and market area interconnection points are not taken into account.
