

**Proposed ARIA 2021 amending ARIA 2016**

Summary of main drafting changes:

<b>ARIA 2021 Ref</b>	<b>Proposed Drafting Change</b>	<b>Comment</b>
General	Change of company name from “Interconnector (UK) Limited” to “Interconnector Limited” and use of “Interconnector” in place of “IUK”.  Removal of obsolete terms and cross references.	
Clause 2.4	Splitting out of liability between NGG and Interconnector.	For greater clarity.
Clause 7.1 & 7.2	Changes mainly to clauses 7.1 and 7.2, with minor knock-on changes in subsequent sub-clauses of clause 7, to reflect similar text in the other IAs that NGG has entered into.	For greater clarity.
Clause 10.2	Additional drafting to clarify email correspondence and removal of references to use of fax.	General update.
Annex A-2 Table A	Water Dewpoint units changed from “from 1 to 69 barg” to “at 69 barg”	To correct technical units.
Annex A-2 Odour	Deletion of previous paragraph 3 on “Odour”	Paragraph is obsolete as NTS is now unodourised.
Annex B-1 para 2	Deletion of obsolete definitions and various updates.	Any terms related to pressure service charging are deleted as charging will now be covered in a separate charging agreement.
Annex B-1 para 4.2	Deletion of reference to paragraph 2.2 of Annex B-3	Cross referenced paragraph is now deleted.
Annex B-2 para 1.1	Deletion of reference to payment	King’s Lynn compressors only run to support pressure.
Annex B-2 para 1.2	Deletion of reference to payment	King’s Lynn compressors only run to support pressure.
Annex B-2 old paras 1.3 & 1.4	Deletion of previous paragraphs 1.3 and 1.4	Considered no longer relevant for IA and no similar language in other IAs.
Annex B-2 old para 1.6	Deletion of reference to forecasts of WI and CV.	Obsolete and no longer required.
Annex B-2 Table A	Max temperature limit changed to 38°C	To correct previous typo.
Annex B-2 Table A	Water Dewpoint units changed from “from 1 to 69 barg” to “at 69 barg”	To correct technical units.

<b>ARIA 2021 Ref</b>	<b>Proposed Drafting Change</b>	<b>Comment</b>
Annex B-2 para 3	Updated text to reflect current operating arrangements and limitations on carbon dioxide	
Annex B-2 old paras 6 to 8	Deletion of references to payment and hydrocarbon dewpoint	Text is now obsolete.
Annex B-3 para 1.1 & 1.2	Deletion of references to charging clauses in the agreement.	Deletion of any reference to charges as will be covered in separate charging agreement, and deletion of other unnecessary terms.
Annex B-3 old paras 1.3 to 1.5	Deletion.	Considered no longer relevant for IA.
Annex B-3 para 2.2	Amended to clarify the Normal Offtake Pressure value.	
Annex B-3 para 2.3	New drafting to clarify charging for pressure requested above 45barg.	To reflect revised service being offered to Interconnector and BBL.
Annex B-3 paras 3, 4 & 5	Minor amendments to reflect revised pressure service.	Note : deadline for pressure requests pushed back by 1 hour.
Annex B-3 paras 6 & 7	Drafting deleted.	Charging arrangements for pressure service now covered in a separate agreement.
Annex B-4	Title changed to Flow Rate Rules	To better reflect content and consistency with other IAs.
Annex B-4 para 1.5	Updated drafting to reflect deletion of the definition of "Curtailed Notice".	To better reflect current operational practises.
Annex B-4 para 1.6	Deletions and amendments to defined terms used in Annex B-4.	
Annex B-4 para 2	Renamed as "Offtake Profile Notice" and various updates to reflect actual operational practise.	Drafting simplified significantly as a general update and to reflect actual operational practise.
Annex B-4 Appendix A	Deleted as template also used in Annex G-1 Schedule C	To avoid inconsistency in template forms.
Annex C	Updates for technical reasons and for drafting clarity and consistency: "Primary Meters" becomes "Flow Measurement Equipment"; "verification" becomes "validation"; Inclusion of additional references to ISO standards. Updated diagram in Appendix 1.	

<b>ARIA 2021 Ref</b>	<b>Proposed Drafting Change</b>	<b>Comment</b>
Annex D para 1.1 & 4.2(a)	Deletion of definition of “Common Services” and “Services”, as they no longer fit the revised Service Contract with PRISMA.	PRISMA have implemented a new TSO Service Contract changing the definition of services offered to TSOs
Annex D para 4.3(g)	New text to recognise INT has implemented PRISMA Secondary for capacity transfers and surrenders	
Annex E old para 2	Deletion	Text now obsolete.
Annex G-1	<p>Updates for consistency and to reflect other changes within the Interconnection Agreement:</p> <ul style="list-style-type: none"> <li>• NGG IGMS system no longer relevant</li> <li>• INT’s ISIS system now obsolete and replaced</li> <li>• updates to reflect actual operational processes</li> <li>• updates to communications</li> </ul>	Minor changes to language on communications related to off-specification gas and planned maintenance.
Annex G-2	Minor updates to reflect operational practise.
