

## Interconnector Limited

---

20 September 2021

### Planned Maintenance shutdown for Gas Year 2021

Following the close of the stakeholder consultation that ran from 18 August to 17 September, INT today confirms its maintenance plans for Gas Year 2021.

A maintenance shutdown will commence at 06:00 CET Tuesday 16 November for a period of 10 days ending at 06:00 CET Friday 26 November.

There will be no flow through the Interconnector in either direction for the duration of the maintenance period.

### Interconnector Limited - Background

Interconnector Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.
