

## Interconnector Limited

---

10 June 2022

### **Maintenance shutdown for Gas Year 2022**

Following the close of the stakeholder consultation that ran from 12 May to 9 June, INT today confirms its maintenance plans for Gas Year 2022.

A maintenance shutdown will commence at 06:00 CET Tuesday 15 November for a period of 15 days ending at 06:00 CET Wednesday 30 November.

There will be no flow through the Interconnector in either direction for the duration of the maintenance period.

### **Interconnector Limited - Background**

Interconnector Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.

Further information on INT can be obtained from [www.interconnector.com](http://www.interconnector.com)
