

Interconnector (UK) Limited

30 March 2020

Annual Maintenance for Gas Year 2020

Following the close of the stakeholder consultation that ran from 2 March to 27 March, IUK is pleased to announce today, its shutdown plans for gas year 2020.

IUK is therefore pleased to announce that a shutdown for annual maintenance will commence at 06:00 CET Wednesday 11 November for a period of 10 days ending at 06:00 CET Saturday 21 November.

There will be no flow through the Interconnector for the duration of the maintenance period.

IUK has also coordinated with its adjacent grid operators. Full technical capacity will be available throughout GY 2020-2021 outside the annual maintenance window.

Interconnector (UK) Limited - Background

Interconnector (UK) Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.
