

Interconnector (UK) Limited

Date: 2 February 2016

IUK to participate in the 2016 PRISMA Yearly Auction

IUK is offering annual capacity for Gas Year 2016-2017 and for Gas Years 2018-2019 through to 2030-2031 on PRISMA for the first time. The auction details will be published on PRISMA on 8 February in preparation for the auction on 7 March.

In order to participate, you need to join the growing number of shippers who have already signed up to the new transportation contract: the IAA (IUK Access Agreement). The registration process is simple and described on IUK's website, www.interconnector.com, where you can also find a copy of the contract and our latest Charging Methodology Statement.

Darren Reeve, IUK's Commercial Director, said, "We are delighted to have capacity available both for next year and the Gas Years from 2018 when the existing long term contracts expire. IUK also makes short term capacity available on PRISMA and we would encourage you to sign up to the IAA to be able to take part in future auctions."

IUK will be at E-World in Essen from 16-18 February and would be pleased to meet and discuss how having access to reliable transportation capacity between the key gas trading hubs in north west Europe and the major downstream markets in the region can benefit you. Please contact us if you would like to arrange a meeting.

INTERCONNECTOR (UK) LIMITED - BACKGROUND

Interconnector (UK) Limited is a joint venture company that owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 630 GWh/d in the opposite direction.

Further information on IUK can be obtained from www.interconnector.com or contact +44 (0) 20 7092 6500
