LATEST SESSION OF IMPLICIT ALLOCATION LEADS TO MORE SALES

IUK is happy to announce that capacity is once again available through Implicit Allocation via HPC as the Implicit Allocation Partner in conjunction with PleXHub. This follows a 5 week pause to allow the PRISMA annual auction to run.

Significant sales have already been seen on the first day: 147 GWh/d for Q1 '19 in the BE-UK direction and 15 GWh/d for Summer '19 in the UK-BE direction. Capacity will be available through Implicit Allocation through to 18 July when we suspend sales in preparation for the quarterly PRISMA auctions (on 6 August). Up to 50% of the technical capacity of the pipeline can be made available through Implicit Allocation with the remainder being reserved for PRISMA auctions.
