

Interconnector Limited

26 October 2022

Planned Maintenance shutdown for Calendar Year 2023

INT has co-ordinated with its adjacent grid operators and is proposing a maintenance shutdown period of fifteen (15) days. The proposal is for this maintenance shutdown to commence Tuesday 7 November 2023 06:00 CET and end Wednesday 22 November 2023 06:00 CET.

In line with the Interconnector Access Code, Section I, paragraph 5.2.1 the consultation on this maintenance shutdown proposal for Calendar Year 2023 opens today.

Please provide comments, if any, to the proposal by 22 November 2022 by emailing consultation@interconnector.com.

Following this consultation period the final plan will be confirmed and published on 25 November 2022.

Interconnector Limited - Background

Interconnector Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.
