

Interconnector Limited

06 October 2023

Planned Maintenance shutdown for Calendar Year 2024

Following our stakeholder consultation issued on 1 September which concluded on 2 October, INT is pleased to confirm a provisional planned maintenance shutdown period of up to 20 days commencing Sunday 1 September 2024.

The duration will be confirmed in April 2024.

There will be no flow through the Interconnector in either direction for the duration of the maintenance period.

Interconnector Limited - Background

Interconnector Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.

Further information on INT can be obtained from www.interconnector.com
