

Interconnector Limited

01 September 2023

Planned Maintenance shutdown for Calendar Year 2024

INT has coordinated with its adjacent grid operators and is proposing a maintenance shutdown period in the month of September 2024. The duration of this Planned Maintenance shutdown period will be confirmed by the end of April 2024.

In line with the Interconnector Access Code, Section I, paragraph 5.2.1 the consultation on this planned maintenance shutdown proposal for Calendar Year 2024 opens today.

Please provide comments, if any, to the proposal by 02 October 2023 by emailing consultation@interconnector.com.

Following this consultation period, INT will confirm the month within which the Planned Maintenance shutdown will take place on 06 October 2023.

Interconnector Limited - Background

Interconnector Limited owns and operates the strategic bi-directional gas pipeline and terminal facilities linking the UK and continental European energy markets. The system is capable of transporting approximately 803 GWh/d from Zeebrugge to Bacton and 651 GWh/d in the opposite direction.
