**Consultation:
Amendment No. 1 of Interconnection Agreement Wallbach
due to implementation of Virtual Interconnection Point
“VIP Germany-CH”**

Dear Sir or Madam,

According to Article 19 No. 9 of the Commission Regulation (EU) 2017/459 of 16 March 2017 (CAM NC), transmission system operators shall offer available capacities at interconnection points connecting the same two adjacent entry-exit systems at one virtual interconnection point (VIP) to provide one single capacity service as defined in Article 3 No. 23 CAM NC.

(Citation CAM NC Article 19 No. 9 sentence 1 for your information:

“Where two or more interconnection points connect the same two adjacent entry-exit systems, the adjacent transmission system operators concerned shall offer the available capacities at the interconnection points at one virtual interconnection point.”)

Carlo van Eysendyck,
Erik Vennekens

In the contractual agreement between the transmission system operators regarding the Virtual Interconnection Point „VIP Germany-CH“ also regulations for the matching, allocation and communication will be agreed.

Taking into account that transmission system operators have to invite network users to comment on these topics according to Article 4 No. 2 of the Commission Regulation (EU) 2015/703 of 30 April 2015 (INT NC), Fluxys TENP would like to give its network users the opportunity to provide their comments on these three topics of the Amendment No. 1 of the Interconnection Agreement Wallbach for „VIP Germany-CH“.

(Citation INT NC Article 4 No. 2 for your information:

“Before concluding or amending an interconnection agreement which contains the rules referred to in Article 3(c), (d) and (e), transmission system operators shall invite network users to comment on the proposed text of those rules at least two months before the agreement is concluded or amended. The transmission system operators shall take the network users’ comments into account when concluding or amending their interconnection agreement.”)

If your company is currently using capacities at the border Interconnection Point “Wallbach” or plans to use capacities at „VIP Germany-CH” in the future, we invite you to send us your comments, remarks or alternative proposals on the rules for matching, allocation and communication of the attached document to the E-mail address communication.fluxystenp@fluxys.com by 17 June 2019.

Yours sincerely,

Fluxys TENP GmbH
